CM1040 Web Development Team 100 Team Assignment Part 1 – Design Specification

- i. Agree on the purpose of the web site
- ii. Research theme park web sites
- iii. Agree on the content for the web site
- iv. Agree on the structure of the web site
- v. Design the wireframes for the web site

Agree on the Purpose of the Website

Brainstorm question: Why would a theme park operator need a website?

- **Marketing and Promotion:** Attract visitors by showcasing attractions, events and special offers.
- **Information Portal:** Provide practical information such as opening hours, ticket prices and park rules.
- **Customer Service:** Offer support through FAQs, contact forms and customer service details.
- **Online Sales:** Sell tickets, merchandise and services (e.g., fast passes, parking).

Unique selling points
Seasonal promotions
Loyalty programmes

Interactive park map
Ride wait times
Opening hours

Chat support
Detailed FAQs

Customisable packages
Merchandise store

Brainstorm question: Who are the stakeholders and what do they need from the website?

- **Prospective visitors:** Individuals considering visiting may check out the website to gather additional information (e.g., rides and shows, opening hours and closure dates, ticket pricing, promotions and events). They may also make ticket purchases on the website to avoid queues for tickets on their visit.
 - **Target Audience:**
 - **Families with children:** Family-friendly attractions, kids' zones and dining options.
 - **Thrill seekers:** High adrenaline rides and attractions.
 - **Tourists:** Vacation packages, accommodation options and nearby attractions.
 - **Schools and Groups:** Group bookings, educational tours and discounts.
 - **People with disabilities:** Accessibility information such as accessible rides and facilities.
- **Current visitors:** Visitors who are in the park may visit the website to view information which will aid decision-making in the instance (e.g., show timings, map of the park, attractions' descriptions and wait times).

- **Business:** Main motive would be to enhance awareness of the park, provide stakeholders with sufficient information, as well as make ticket purchase convenient for customers to reduce queue times at physical counters and more importantly increase sales.

Research theme park web sites

Websites selected for research:

1) Ghibli Park

<https://ghibli-park.jp/en>

2) Universal Studios Singapore

<https://www.rwsentosa.com/en/attractions/universal-studios-singapore>

3) Hong Kong Disneyland Park

<https://www.hongkongdisneyland.com/destinations/theme-park/>

4) Genting Skyworlds

<https://www.gentingskyworlds.com>

5) Legoland Malaysia

<https://www.legoland.com.my/explore/theme-park>

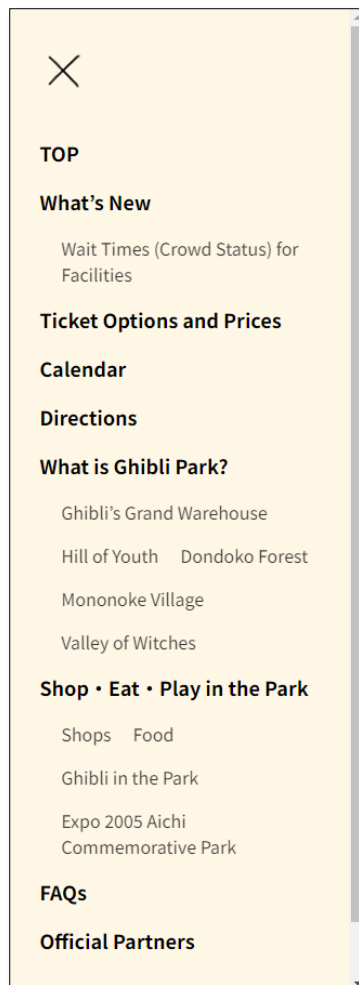

1) Ghibli Park

Types of information found on the site

Overview of the park - Introduction: Brief description of the park's concept and connection to Studio Ghibli. - Themed Areas: Detailed sections for each themed area within the park, such as Ghibli's Grand Warehouse, Hill of Youth, Dondoko Forest, Mononoke Village and Valley of Witches.	Attractions and Exhibits - Children's Town and Cat Bus Room: Descriptions of play areas inspired by Ghibli films. - Special Exhibitions: Details on specific exhibitions like "Delicious! Animating Memorable Meals".
Visitor Information - Tickets and Reservations: Information on ticket types, pricing and reservation requirements. - Operating Hours: Park opening and closing times, including special hours for specific areas.	Dining and Shopping - Restaurants and Cafes: List of dining options within the park with themed menus. - Shops: Locations of shops selling Ghibli themed merchandise.
Events and News - Upcoming Events: Calendar of special events and seasonal activities. - News and Updates: Latest announcements and updates regarding the park.	Practical Information - Getting There: Directions and transportation options for reaching the park. - FAQs: Frequently asked questions covering common visitor concerns.

Structure of the Site

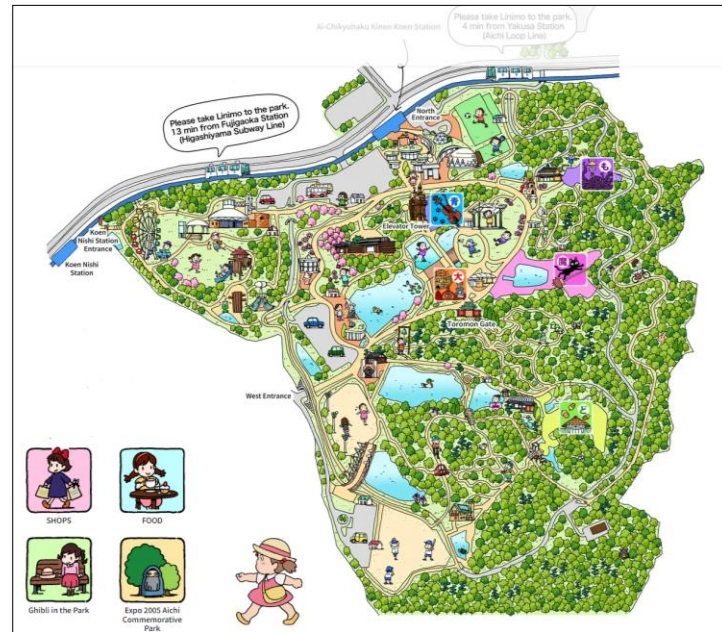

Homepage: Features an overview of the park with links to key sections such as attractions, tickets, and visitor information.

Navigation Menu: A top navigation bar with dropdown menus for quick access to detailed information on various aspects of the park.

Interactive Elements: Use of interactive maps and multimedia content to engage visitors.

Responsive Design: The site is designed to be responsive, adapting well to both desktop and mobile devices.

Evaluation of the site

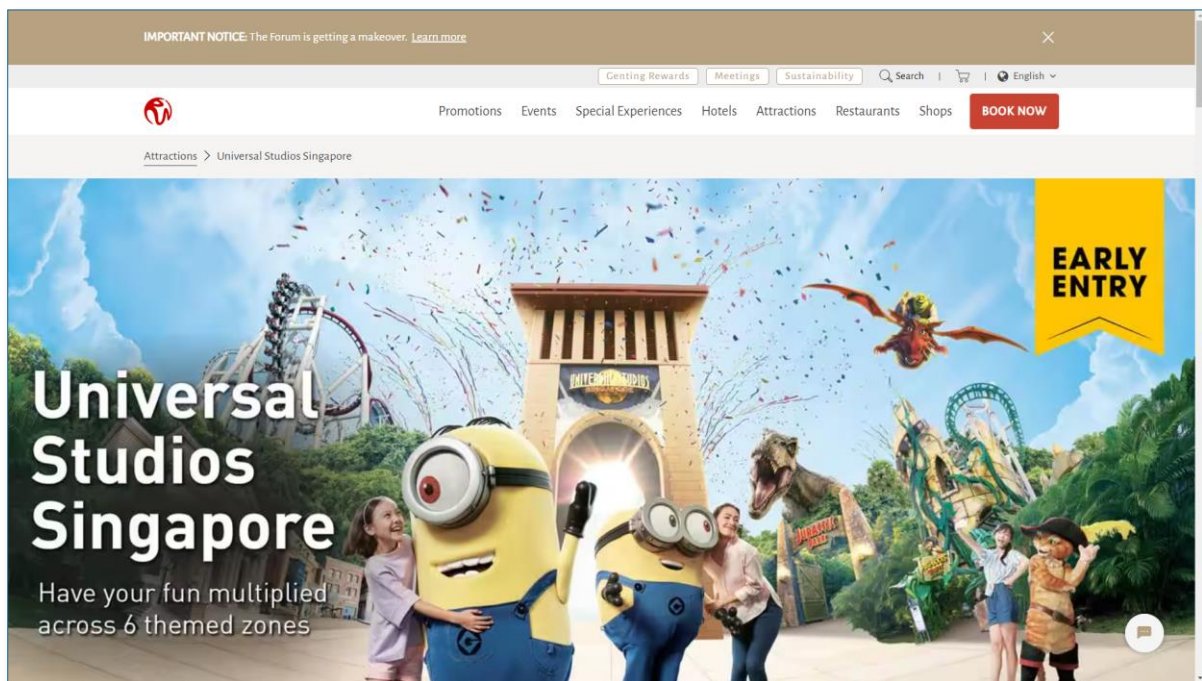

Positive Aspects		Negative Aspects
1) Multilingual Support  The site offers content in two languages – English and Japanese, catering to both local and international audience.	2) Thematic Consistency The website's design and content are consistent with the whimsical theme of Studio Ghibli, enhancing the immersive experience.	1) Navigation Complexity Despite having a clear navigation menu, the vast amount of information and multiple sections can make it somewhat overwhelming for first-time visitors to navigate. Unique placements of navigational buttons can throw new users off.

3) Detailed Content Provides comprehensive information about the park's attractions, ensuring visitors have all the details they need to plan their visit.	4) Fun Navigation  Animated web elements that weave into the theme of the park allow for navigation unlike the traditional methods.	2) Loading Times Rich multimedia content can sometimes result in slower loading times, which may affect user experience, especially on slower internet connections.
5) Interactive Features Interactive elements like maps and multimedia content help to engage visitors and provide a richer online experience.	6) Visual Appeal High-quality images and videos that showcase the park's attractions and ambiance effectively.	3) Content Density Some pages are densely packed with information, which can be overwhelming and might require users to sift through a lot of text to find specific details.

Insights gathered from the site (Summary)

- Content
 - Thematic consistency
 - Comprehensive information
 - Balance content density
 - Multilingual support
- UI
 - Interactive features
 - User-friendly navigation
 - Simplify navigation
- Code optimisation
 - Optimise load times

2) Universal Studios Singapore

Types of information found on the site

Tickets and Pricing - Detailed information on ticket types and prices, including special offers for local residents.	Visitor Information - Practical information such as operating hours, directions to the park, FAQs and contact details.
Rides and Attractions - Descriptions of various rides and attractions, including safety information and accessibility options for guests with disabilities.	Shows and Entertainment - Listings of live shows and entertainment options, including descriptions and schedules for events such as "Lights, Camera, Action!" and "WaterWorld".
Park Map - An interactive map showcasing the different themed zones such as Hollywood, New York, Sci-Fi City, Ancient Egypt, The Lost World and Far Far Away.	Dining and Shopping - Information about restaurants, food stands and shops within the park.

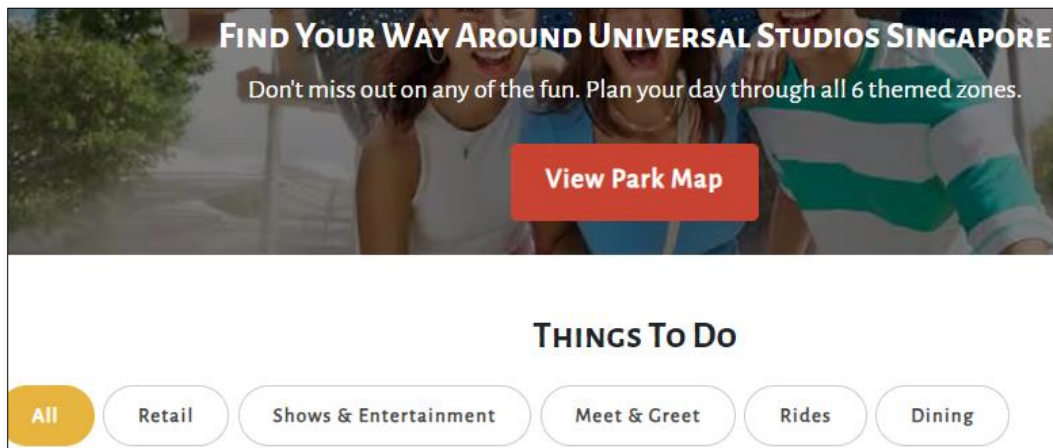

Structure of the site

- >Homepage
 - >Overview and Highlights
 - >Banner with highlights of major attractions, upcoming events and special offers
 - >Quick links to key sections such as ticket booking, attractions, shows and visitor information
- >Navigation Menu
 - >Top Navigation Bar
 - >Dropdown menus to different sections of the site
 - >Attractions
 - > Descriptions of rides and themed zones
 - >Shows
 - >Performance schedules and details
 - >Dining
 - >Restaurants and food stands in the park
 - >Shopping
 - >Locations and descriptions of shops in the park
 - >Visitor Information
 - >Park hours, directions, FAQs and contact information
 - >Tickets
 - >Ticket types, pricings, offers and booking options
- >Interactive Elements
 - >Interactive Park Map
 - >Allows visitors to explore different zones and attractions within the park
- >Detailed Sections
 - >Rides and Attractions:
 - >Separate pages for each themed zone
 - >Detailed descriptions of each ride, including age restrictions, height requirements and accessibility options
 - >Shows and Entertainment
 - >Descriptions and schedules of live shows
 - >Special sections for seasonal events and limited-time performances
 - >Dining and Shopping
 - >Lists of dining options categorised by type and theme
 - >Information on unique dining experiences and special menus
 - >Descriptions of shops and what visitors can expect to find in each
- >Visitor Information
 - >Getting Here
 - >Contact Us
 - >Resort Guide
 - >Frequently Asked Questions
- >Footer
 - >Additional Links
 - >Links to legal information, privacy policy and terms of use.
 - >Social media icons for following Universal Studios Singapore on various platforms

Positive Aspects

^Clear cut top navigation bar

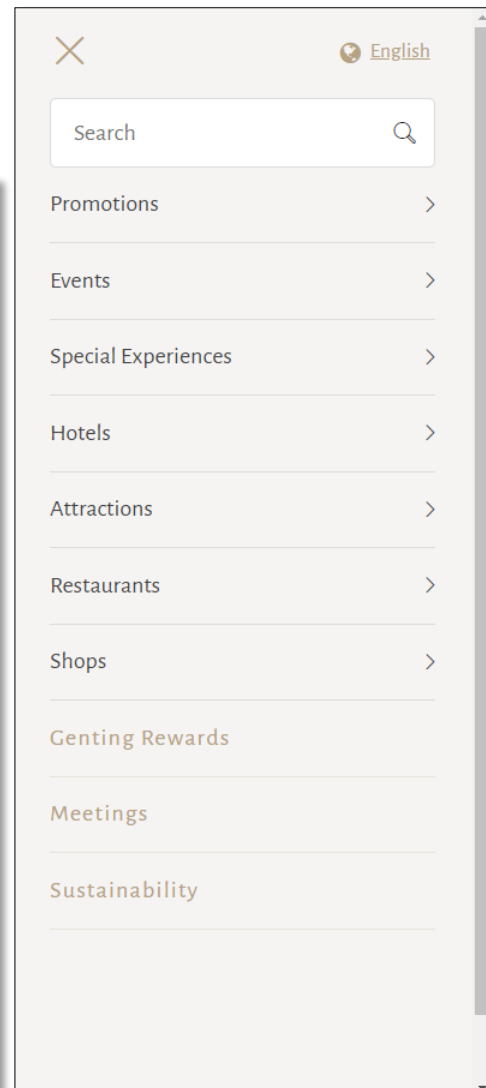

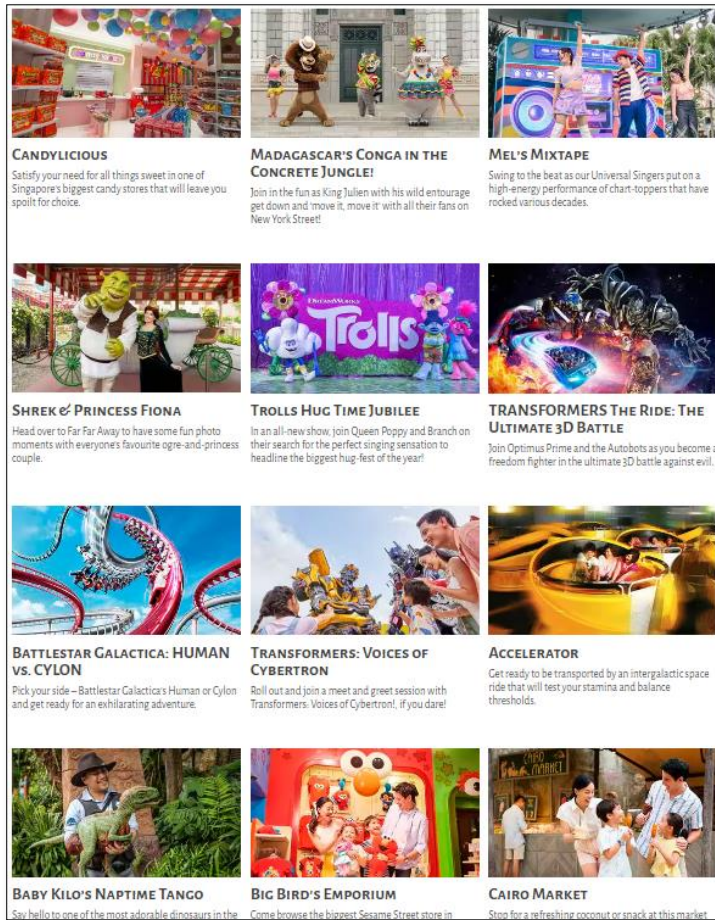

^Well defined buttons

^Images are rendered with lower pixels to decrease load time

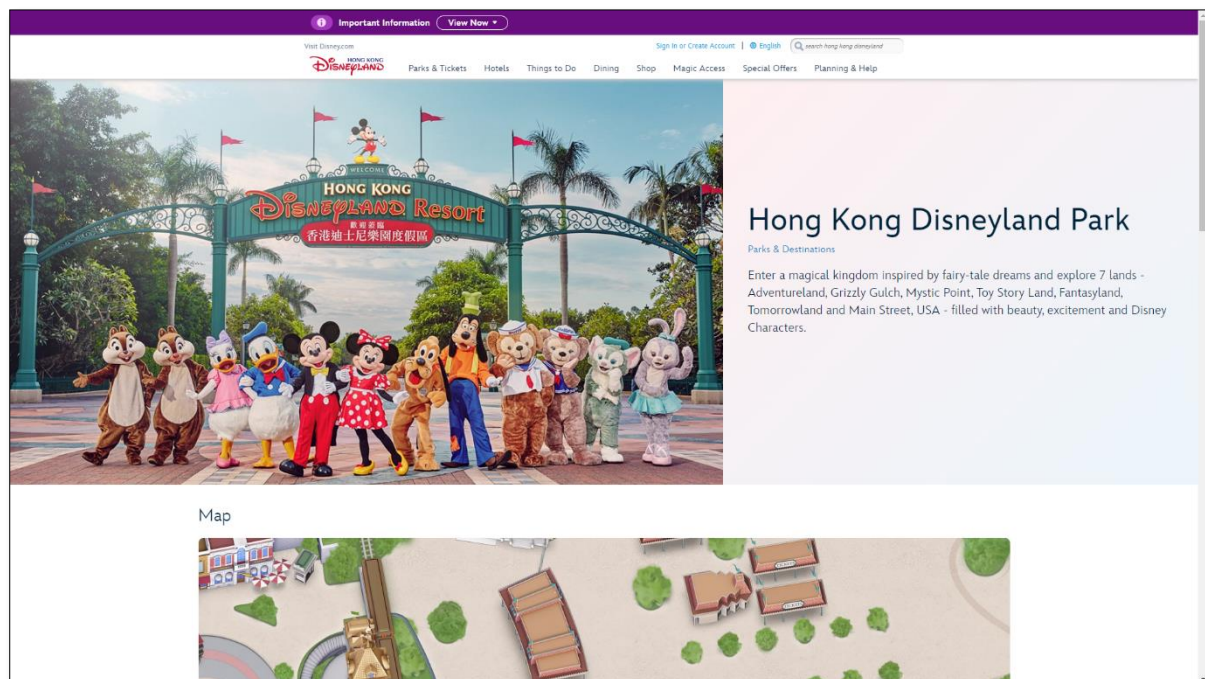

Negative Aspects

Side navigation bar links to other RWS sites (affiliated but not relevant to the theme park) which may confuse many users of the site →

^Image overload on main page, may cause slower load times

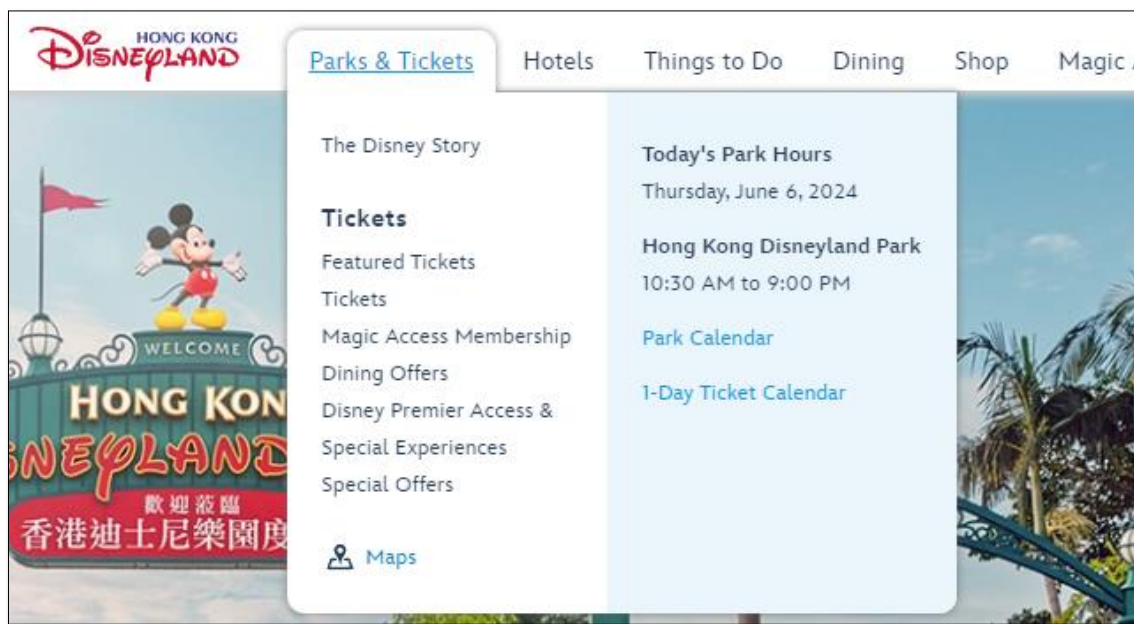

3) Hong Kong Disneyland Park

Types of information found on the site

Overview of Themed Areas - Descriptions of themed lands such as Adventureland and Tomorrowland. - Key attractions and experiences within each area.	Visitor Information - Practical details such as park hours, tickets and pricing, park rules and guest services.
Rides and Attractions - Detailed information on rides, including age and height requirements and accessibility options.	Shows and Entertainment - Schedules and descriptions of live shows, parades, and special events.
Park Map - An interactive map that helps visitors navigate through the park, showing locations of attractions, dining and other facilities.	Dining and Shopping - Lists and descriptions of dining options, including themed dining experiences. - Information on shopping locations for souvenirs and Disney merchandise.

Structure of the site

>Homepage

- >Main image + Overview of the park

- >Quick links to Map, Attractions, Entertainment, Events, Dining and Official Mobile App

>Navigation Menu

- >Top Navigation Bar (can appear as Side Bar depending on window aspect ratio)

- >Dropdown menus for Parks & Tickets, Hotels, Things to do, Dining, Shop, Magic Access, Special Offers, Planning & Help

- > Visitor Info: Today's Park Hours and link to Calendar

- >Language setting, Sign in or Create account, Visit Disney.com

>Interactive Elements

- >Interactive Park Map

- >Locations of attractions, restaurants and other facilities

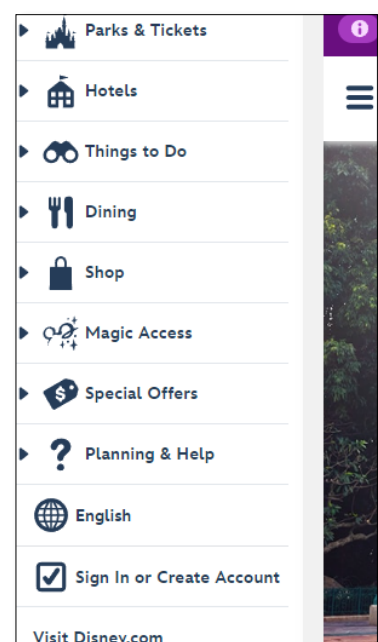

>Footer

- >Additional Links:

- >Related sites, About Our Company, Careers

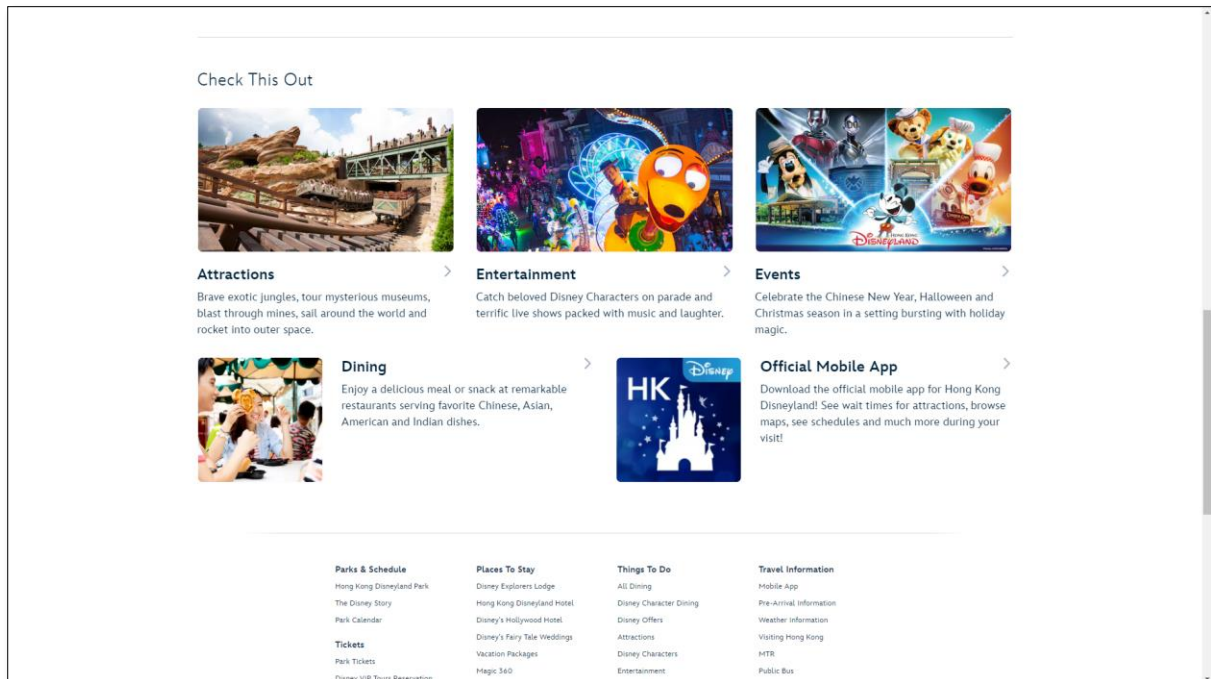

- >Legal information, privacy policy, terms of use

- >Social media links

Positive Aspects

This website stands out from the rest in terms of simplicity, boasting an uncluttered design that is visually appealing and user-friendly. The minimalist layout makes it easy on the eyes, preventing information overload and allowing users to find what they need quickly. This approach ensures a pleasant browsing experience, enhancing readability and efficiency.

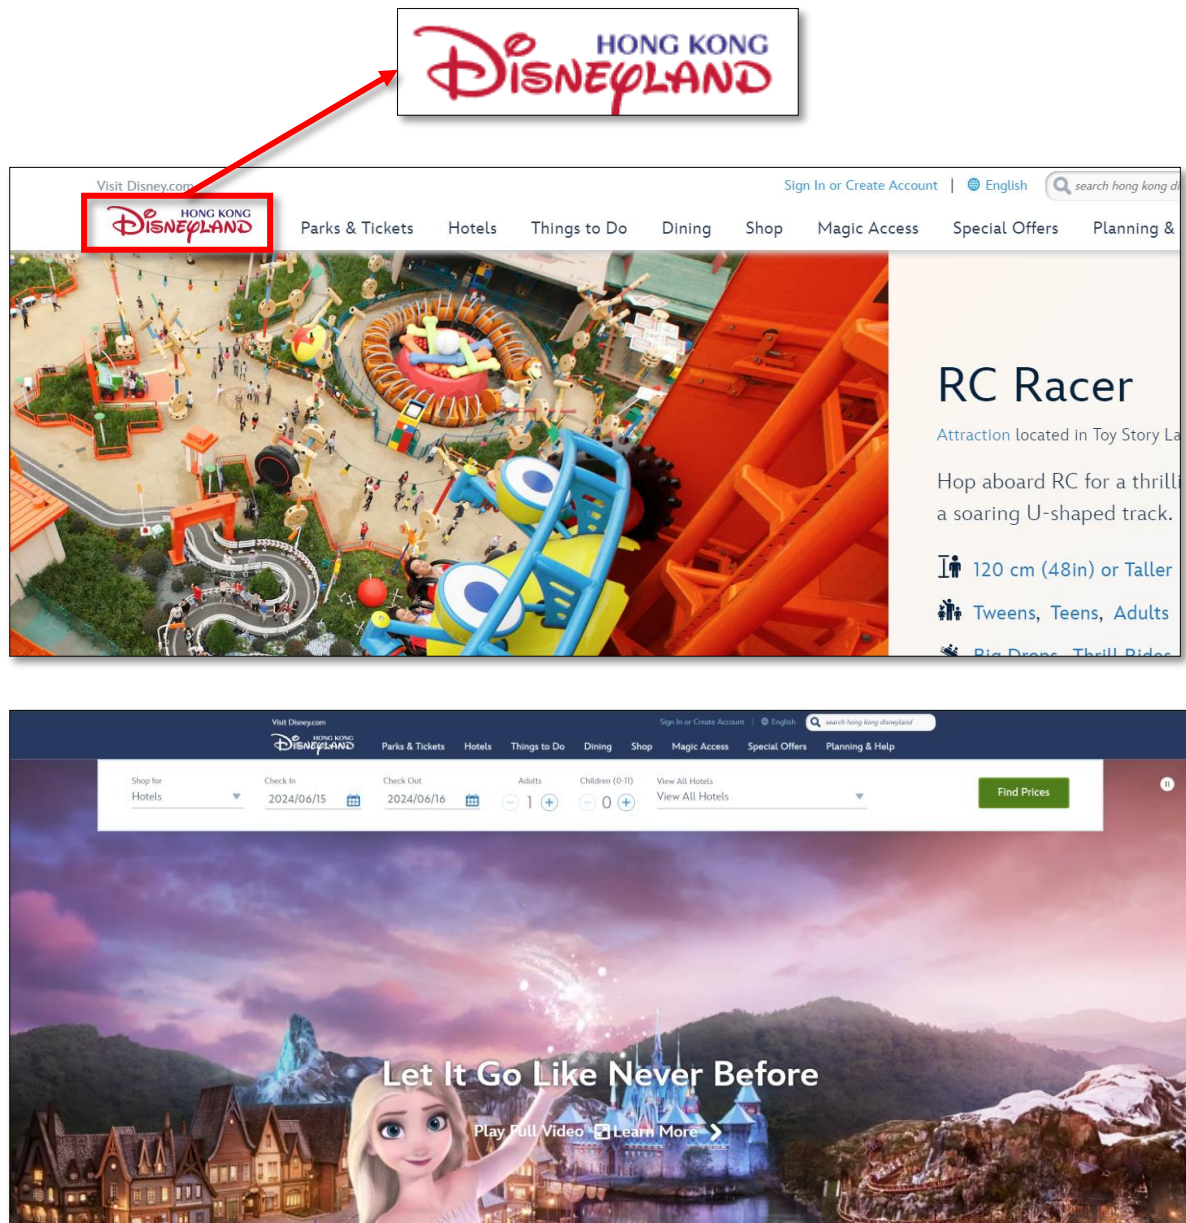

Simple Navigation Navigation menus are straightforward and intuitive, allowing users to effortlessly move between different sections of the site.	Clear Visual Hierarchy The use of clear headings, subheadings and sections helps to guide the user's eye and prioritise important information.	Ample White Space Generous white space around the elements prevents the site from feeling cramped and enhances readability.	Concise Content Information is presented concisely, avoiding long blocks of text and using bullet points or short paragraphs.
Focused Design Elements Design elements such as images and icons are used sparingly and purposefully, ensuring they support rather than distract from the content.	Easy-to-Read Typography The use of simple, legible fonts in appropriate sizes and colors makes reading effortless.	Consistent Design Consistent use of colors, fonts and styles throughout the site provides a cohesive and professional look.	Fast Loading Times The uncluttered design contributes to faster loading times, improving the overall user experience.

Negative Aspects

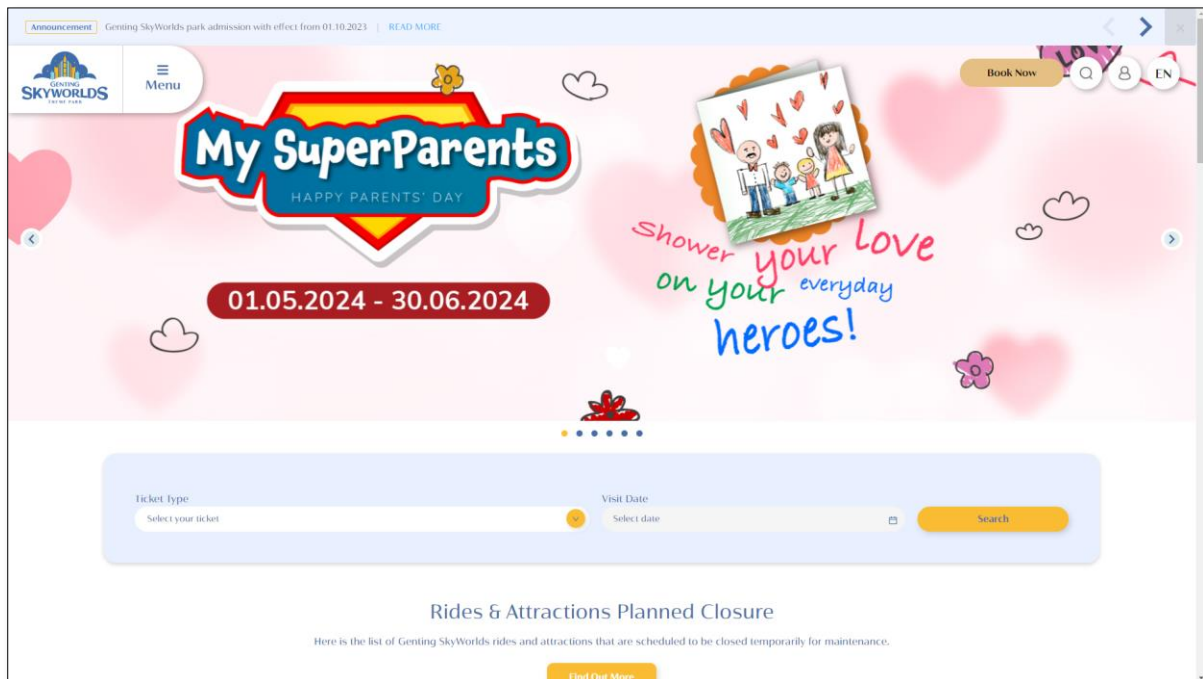

This website has limited navigational capabilities, making it difficult for users to backtrack.

For example, clicking on the logo directs users to the main page, which primarily covers hotels and resort offers, with insufficient information about the park. To find the theme park-specific site, users must scroll down to the footer and locate “Hong Kong Disneyland Park.” This cumbersome process can lead to inconvenience and discomfort when navigating the site, detracting from the overall user experience. Enhancing navigational ease would greatly improve usability.

^ directed to <https://www.hongkongdisneyland.com/> after clicking on the logo

4) Genting Skyworlds

Types of information found on the site

Latest Events and Promotions - Plastered on the top of the main page is a sliding display of current events.	Visitor Information - Practical details such as park hours, closure dates and guest services hotline.
Explore - Descriptions of different themed areas within the park such as Eagle Mountain and Ice Age.	Tickets - Information on ticket types, promotions and reservation options.
Stay - Nearby accommodation options linked to Resorts World Genting.	Plan Your Visit - Guides, FAQs, park rules and useful tips for visitors.

Structure of the site

>Homepage

- >Main Section: Features rotating banners with promotions, new attractions and highlights.
- >Quick Links: Buttons for immediate access to Tickets, Explore and Plan Your Visit sections.
- >Featured Sections: Highlights of top attractions, special offers and news updates.
- >Search bar: For more personalised search.
- >User account: To login under Resorts World Genting for easier booking.
- >Language Selection: Options to view the site in different languages.

>Main Navigation Menu

>Explore

- >Themed Zones: Information on different areas of the park.
- >Attractions: Detailed descriptions, ride features and thrill levels.

>Tickets

- >Ticket Types: Single-day, multi-day, and annual passes.
- >Promotions: Current deals and discounts.
- >Booking: Links to purchase tickets and make reservations.

>Stay

- >Accommodation: Options at Resorts World Genting with booking links.
- >Packages: Bundled deals with hotel and park tickets.

>Plan Your Visit

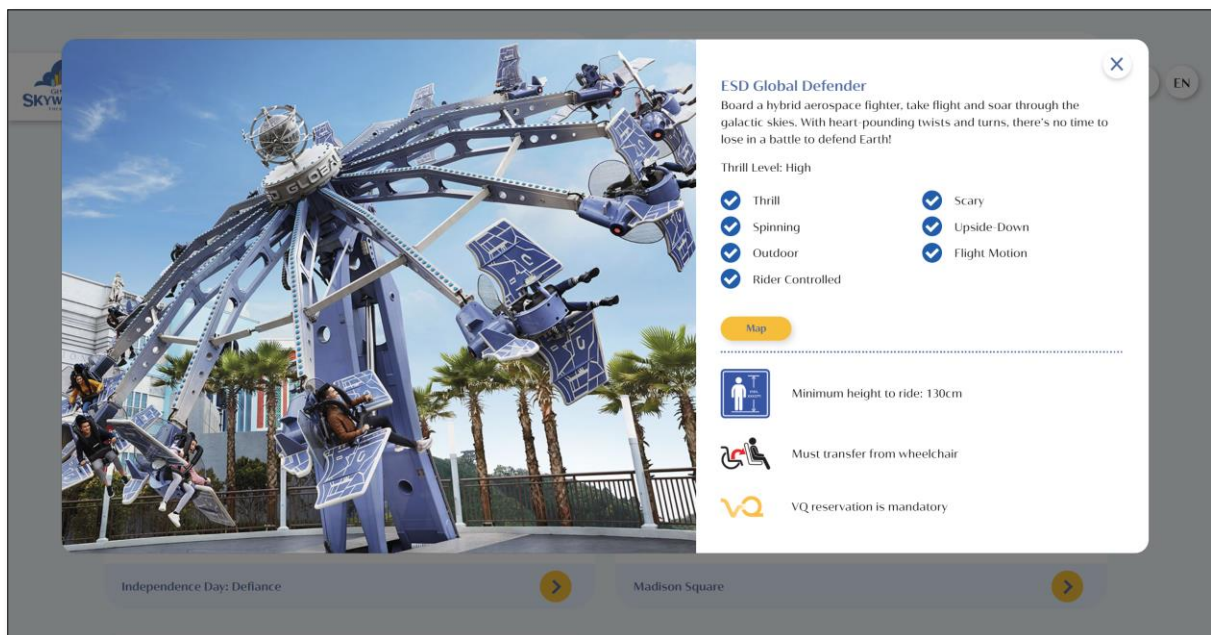

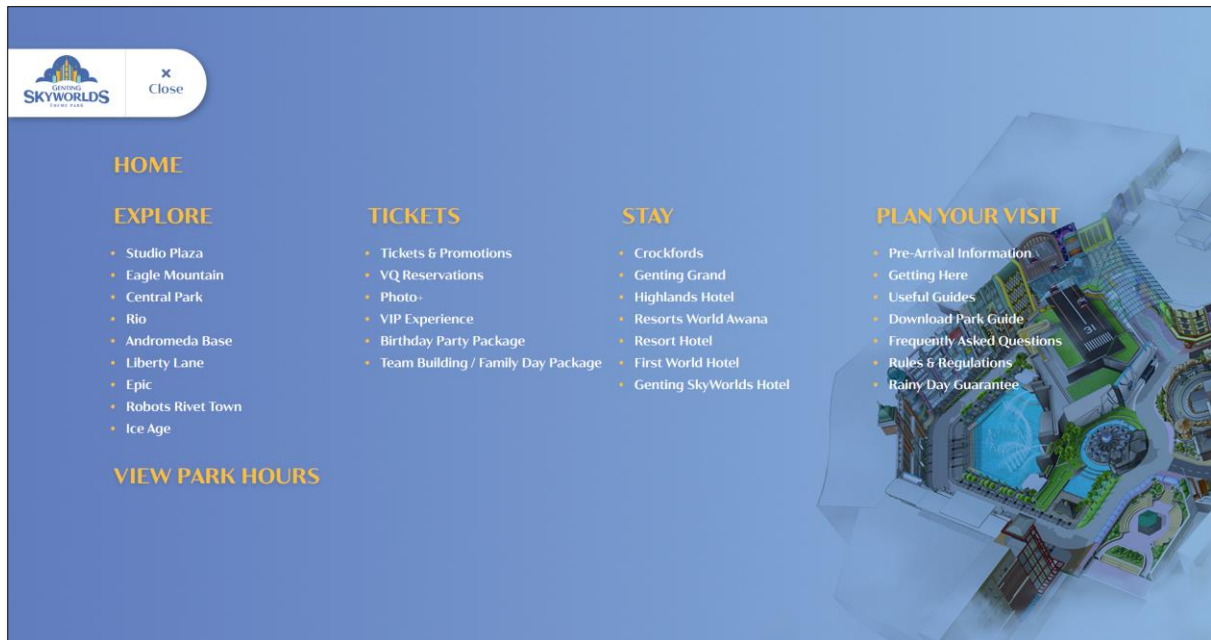

- >Visitor Info: FAQs, park rules and tips.
- >Guides: Downloadable maps and guides.
- >Events Calendar: Upcoming events and shows.

>Footer

- >Additional Links: Privacy policy, terms of use and sitemap.
- >Contact Information: Customer support details.
- >Social Media: Links to official social media channels.

Positive Aspects

The website features a brilliant navigation bar that expands to full screen when opened, offering users a comprehensive view of all menu options without cluttering the main page. This design ensures that the navigation experience is immersive and efficient, as it closes to return users to their previous location on the page without any disruption.

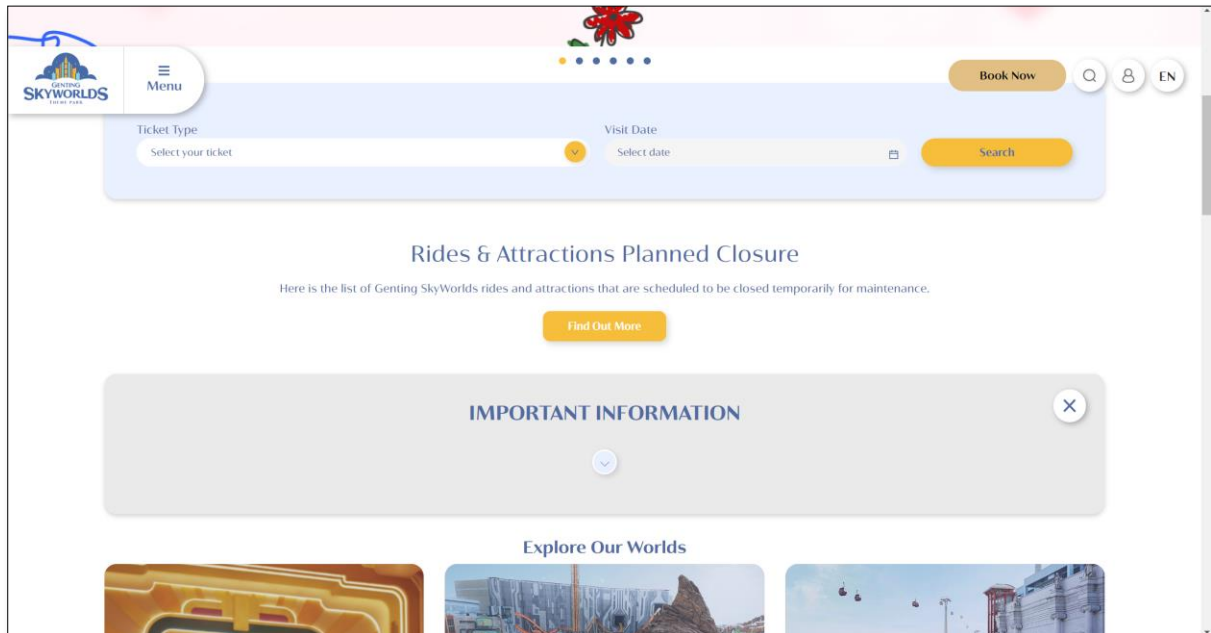

^Clicking on attractions prompt pop up view instead of directing to another page

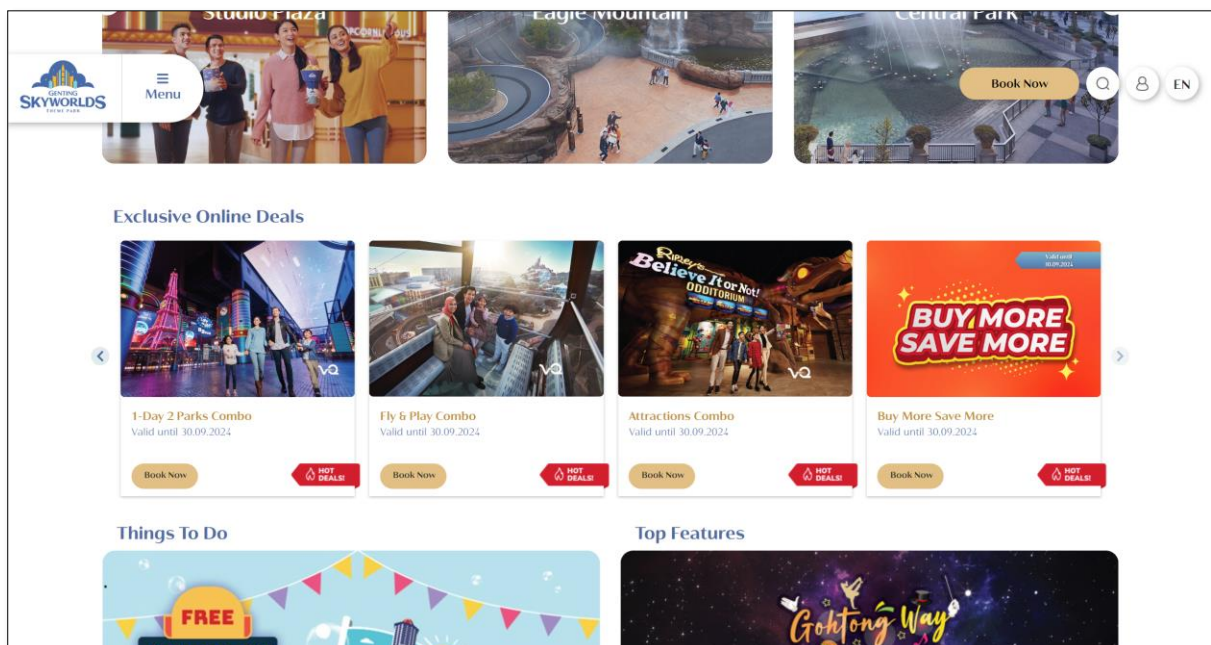

^Previous and next arrows readily available to ease navigation

Both designs aid users in viewing information without the need to use the browser's back button. This user-friendly layout enhances usability by providing easy access to all site sections while maintaining a clean and organised interface.

Negative Aspects

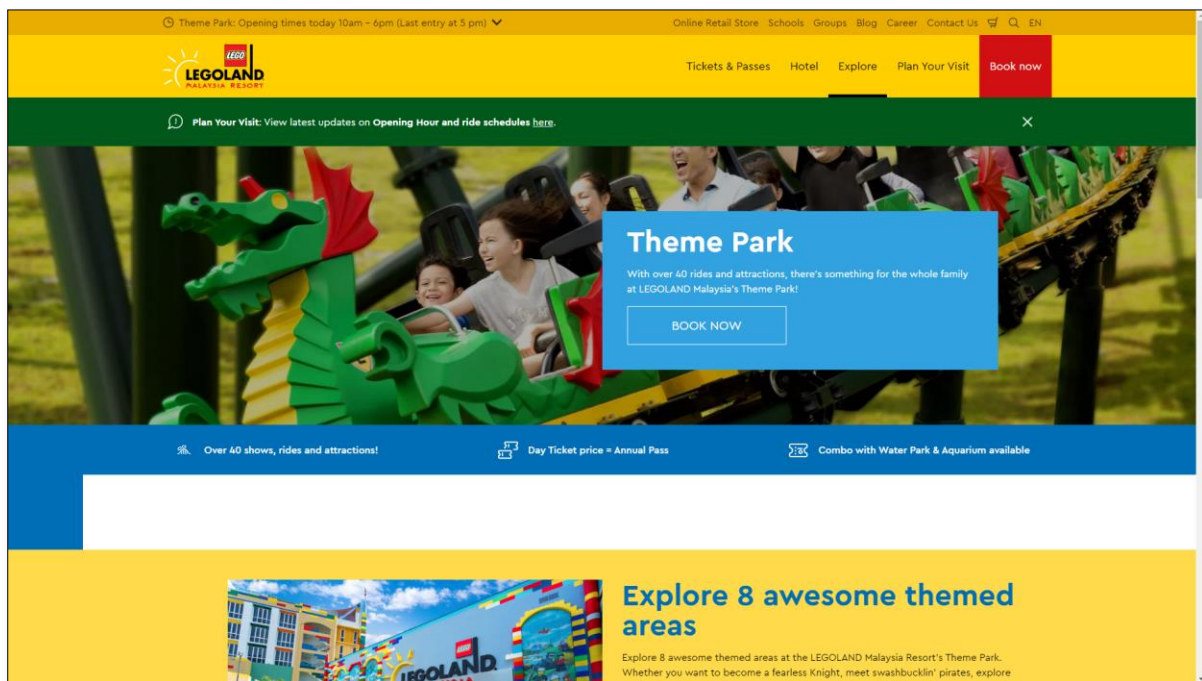

^Requires users to scroll a substantial portion before arriving at its first practical information about the park

^Homepage clutter could overwhelm new visitors as well as increase load time for users with slower internet connections

5) Legoland Malaysia

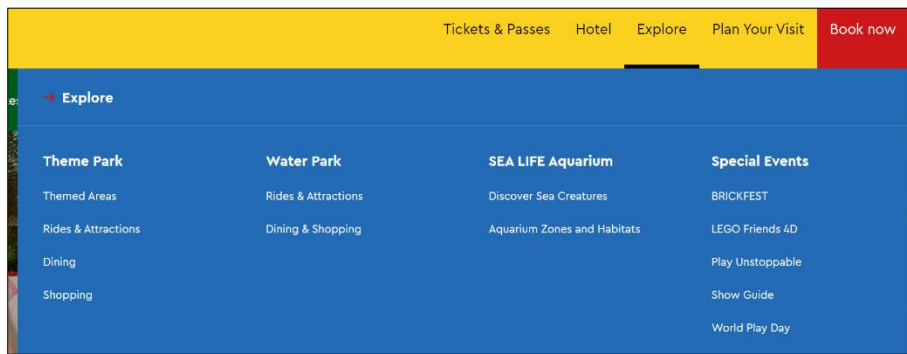

Types of information found on the site

Overview of Themed Areas - Descriptions of themed areas such as LEGO CITY and Land Of Adventure. - Key attractions and experiences within each area.	Visitor Information - Practical details such as opening hours, ride schedules and guest services.
Rides and Attractions - Detailed information on rides, including height requirements and location.	Tickets and Passes - Purchase information on day tickets, annual passes and extras.
Resort Map - A pdf map of the resort, which includes other attractions such as the water park and aquarium apart from the theme park.	Dining and Shopping - Lists and descriptions of dining and shopping options at the park. - Link to its online retail store.

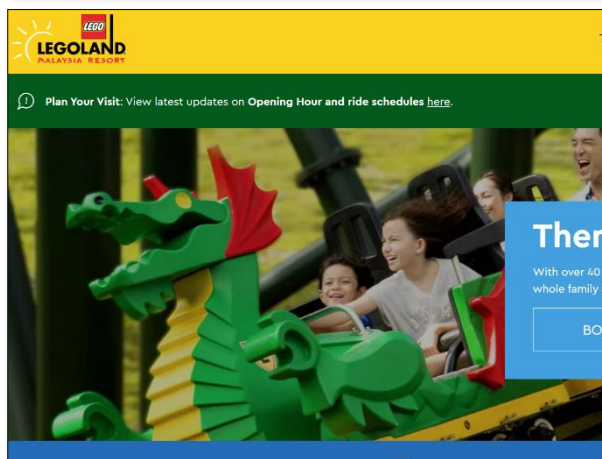

Structure of the site

Homepage Features sections for themed areas, attractions, dining and shopping, with buttons to direct to specific page.	Navigation Bar Defined categories as Tickets & Passes, Hotel, Explore and Plan Your Visit, with sub-categories listed in drop-down menus.	Footer Additional links for visitor information, company details, privacy policies and social media.
--	--	---

Positive Aspects

<Clear navigation that is intuitive and easy to use, allowing users to find information quickly

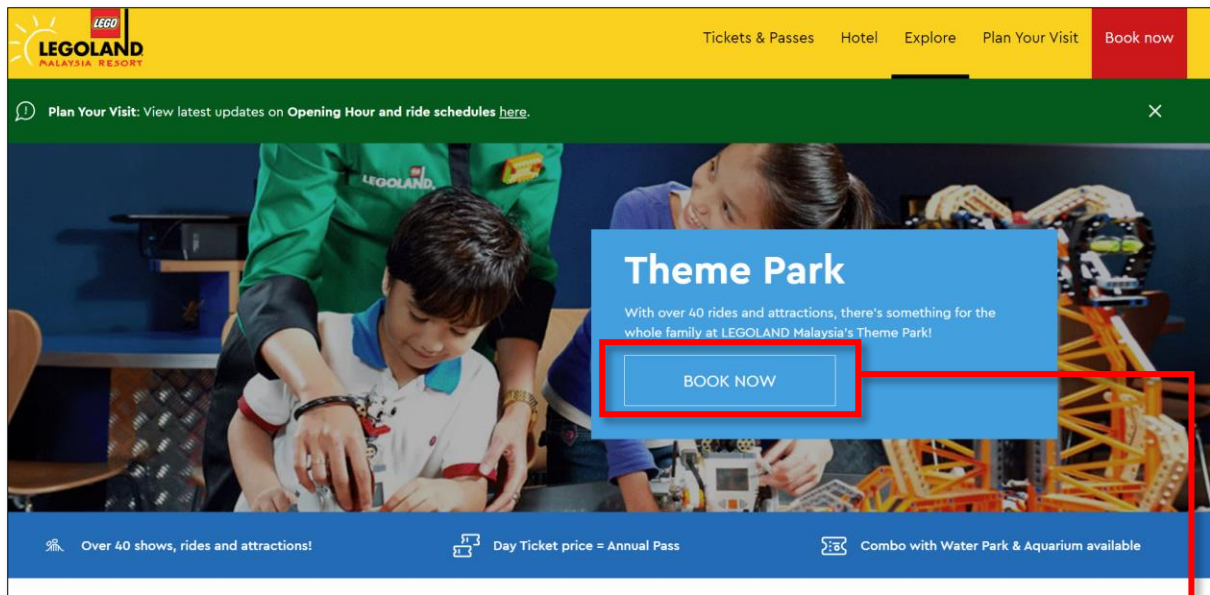

<Has visual appeal; uses bright and engaging images that align with the park's brand

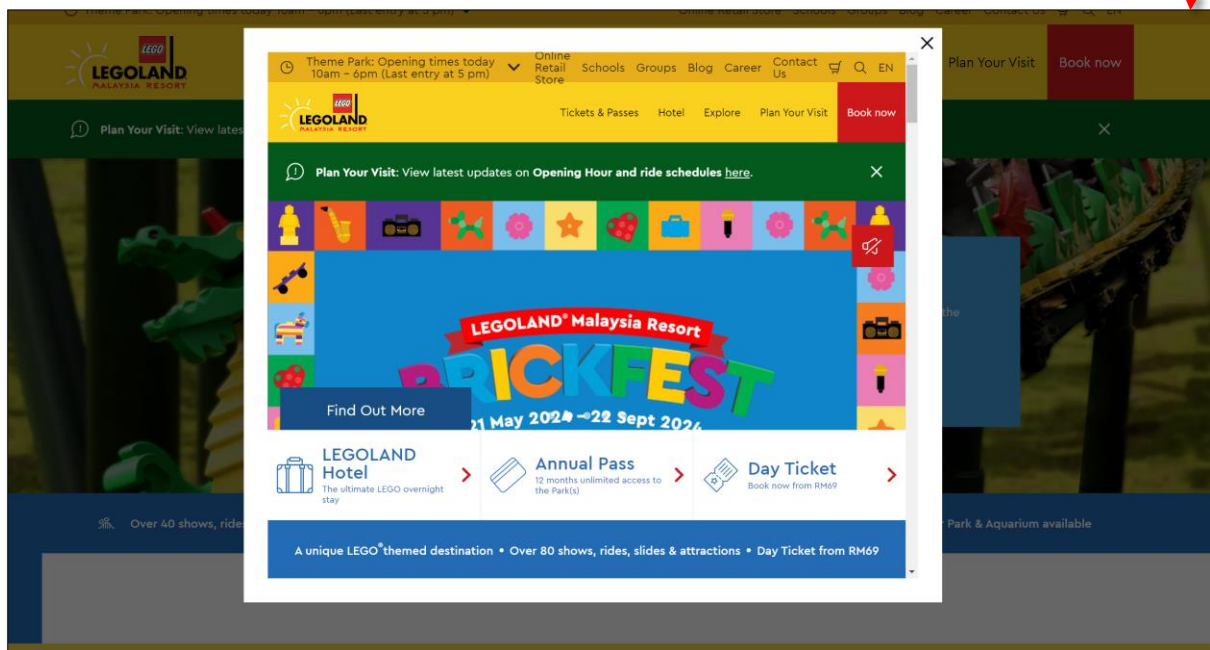

Negative Aspects

^Map is non-interactive and relatively difficult to locate on the website

^Clicking on the Book Now button opens up a small window (as shown below) that shows the homepage, rendering the button redundant

Insights obtained for website design

- User-friendly navigation
 - o Well organised categories and sub-categories
 - o Ample spacing, avoid clutters
- Visual consistency
 - o Maintain a consistent visual design throughout the site
- Clear information
 - o Commonly needed information should require the least amount of clicks to get to
 - o Detailed description to be provided as needed (upon user interaction)

Agree on the content for the web site

Theme

The theme park will be centered around "**Doraemon**", featuring characters and settings from the beloved manga and anime series.

Target Audience

Fans of the series.
Ensure inclusivity for **all ages** and **accessibility requirements**, offering attractions for young children, teenagers, adults and senior visitors.

Attractions

Time Machine Ride

A thrilling adventure through different eras, featuring 4D effects and storytelling.

Nobita's Neighbourhood

Family-friendly area with interactive exhibits and playgrounds.

Gadget Museum

Showcase of Doraemon's gadgets with interactive displays.

Shizuka's Tea Garden

Tranquil space for relaxation, character meet-and-greets and themed refreshments.

Doraemon's Magic Show

Live magic show featuring Doraemon and friends performing tricks and illusions.

Dorami's Science Lab

An educational attraction where kids can engage in fun, hands-on science experiments.

Big G Roller Coaster

High-speed, adrenaline-pumping roller coaster themed around Gian's strength.

Doraemon's Flying Ship Adventure

A magical ship that sail through the skies of Tokyo, offering a mix of gentle thrills and stunning visuals.

Visitor Information

Operating hours

Today's operating hours as well as day-to-day operating hours including Public Holidays.

Calendar

Up-to-date calendar showing availability, closure dates and upcoming events.

Park Map

Interactive map of the park detailing attractions and amenities.

Directions

Address and directions to the park with public transit and parking information.

Tickets and Pricings

Standard tickets, discounted tickets for children/seniors and family packages.

Online ticket sales and booking system

Sale of tickets online via purchasing form and online payment, according to availability.

Events and Promotions

Notify visitor of upcoming events, news updates and seasonal promotions.

Dining and Shopping

Themed restaurants and shops serving and selling Doraemon-themed treats and goods.
